🏢 WORK EXPERIENCE

Jan’23 - Present

📌 ENPHASE SOLAR ENERGY PVT. LTD.

UX Designer Jun’23 - Present

- Owned UX for Solargraf.com: Improved **solar system production loss visualization**, restructured the **design tool UX**, and built a **40+ icon set** based on usability principles.
- Lead the design for **Express Editor**, enabling quick proposal edits for installers, enhancing efficiency.
- **Designed the Enphase CX AI Assistant**: Defined **chat UX**, introduced **chat references**, **multi-media input**, **smart notifications**, and refined **conversation design** for contextual responses.
- Created and implemented **Figma-based Design System**, optimizing UI consistency and scalability.

UX Design Intern Jan’23 - Jun’23

- Carried out **thesis project** on “Designing an AR-based **self-resolution guide** for residential solar power system users” projected to reduce **customer support calls by 50,400+ per year** which later got **recognized in the company wide annual innovation contest, Ennovate’23 as an honourable mention amongst 130+ entries across global teams**.
- Contributed in creating the **Design System** for the key client facing application.

May’22 - Jul’22

📌 BREW MONEY

UX Design Intern

- Redesigned the **company website** for better usability on **desktop and mobile platforms**.
- Designed **4 new features** using UX principles, backed by **usability checks and A/B testing**.
- Built an NFT **Ad website** with **animated mascot**, **giving engagement and a bold personality** to the website.

Dec’20 - Jun’21

📌 CYBERTAPRI PVT. LTD.

Illustration And Graphic Design Intern

- Designed **brand-aligned social media posts** and **illustrations** for marketing campaigns.

Jun’18 - Oct’20

📌 CAPGEMINI TECHNOLOGY SERVICES

Senior Software Engineer

- UI Development, Functional testing for different business units of the application, Generated user stats for various functionalities and analysed the data for user behaviour and patterns, drop off points, etc.

🏆 ACHIEVEMENTS

Ennovate’23, Enphase Solar Energy, Jan’23 - Apr’23
INNOVATION FOR ENPHASE
Honourable Mention

- Designing an **AR-based self-resolution guide** for residential solar power system users which has a **potential to reduce calls** to customer support team by **50,400+ calls** per year.
- Competed amongst 130+ entries across all Enphase’s global offices.

GRID Designathon 2022, Gurgaon, Aug’22
24 HOUR UI/UX DESIGN COMPETITION
1st Runner Up, Team Participation

- Designed an application **URJA** to promote the usage of Solar Energy in India irrespective of land and cost issues.
- Competed amongst 100 shortlisted participants out of 2k entries received.

Cognizance - IIT Roorkee, Feb’22
UI/UX DESIGN CHALLENGE
1st Position, Team Participation

- Designed an application **KISAN** to address the issues faced by farmers in rural parts of India.
- Competed amongst participants across IIT Roorkee and other colleges in India.
